YOUNG TURKS STORM THE SULTAN'S PALACE

After Giving Orders for No Resistance Abdul Hamid Hears Reports of the Attack.

CONSTANTINOPLE, April 26.—The Yildiz garrison surrendered Sunday to the Constitutional forces. The commanders of the garrison battalions began sending in their submission to Mahmoud Schefket Pasha Saturday night and the whole of the troops protecting the palace gave their formal and unconditional surrender shortly after dawn. Niazi Bey, called the hero of the July revolution, is now in command of the garrison.

Sultan Abdul Hamid has been permitted to remain within the walls of the Yildiz Kiosk, where, Saturday, in company with his ministers, he waited for the outcome of the struggle between his loyal troops and the army of investment, each hour bringing to him word of fresh disaster. It has been stated that the Sultan gave orders to his men not to resist.

Both Sides Lose Heavily.

Whether or not this is true, it can be safely said of the troops within the capital that they put up a stubborn resistance at all points, and the losses on both sides are exceedingly heavy for the length of time the engagement was in progress.

A representative of the commander-in-chief of the Constitutionalist force is authority for saying that there will be an adequate inquiry into the sovereign alleged complicity in the recent mutiny. The ministry has not yet been dissolved, but Constantinople and a number of other places have been declared in a state of siege. Martial law prevails.

The last garrison to surrender was the Scilimich artillery barracks. Four thousand men stationed there with a hundred guns threatened to blow the city into ruins, but Gen. Schefket yesterday ordered up six big guns and several batteries of machine guns to positions which commanded the barracks, and the cruiser Medjidieh steamed out of range of the field pieces and prepared for action. The commander of the barracks thereupon submitted.

Capital in State of Siege.

Following Saturday's terrific fighting the city took on an aspect of strange quiet towards evening. There was fear that there would be further fighting during the night, as the forces of Gen. Schefket were strongly posted close to the palace.

The investing troops were reinforced in the fear that the Yildiz garrison would remain loyal to the Sultan and continue the struggle to the end. Fortunately the officers saw the hopelessness of resistance.

Following the proclamation of martial law in Constantinople and environs a circular note was sent to each of the foreign ambassadors. It read:

"I have the honor to inform your excellency that in view of the circumstances a state of siege begins today in the capital, Ismid, Tchekmedje, Tchatalja, Gebize, Kartal and Beyooz.

(Signed) "RIFAAT,
"Minister of Foreign Affairs."

Col. Galib, inspector-general, has been made responsible for the preservation of order, and placards have been posted about the city requesting the people to continue their business. The posters advise the populace to keep within doors from one hour after sunset until sunrise, but permission will be given by the officers of the watch for passing through the streets on necessary business after nightfall. The object in establishing martial law is chiefly to permit a military search of residences for fugutives and to bring seditious persons before military courts for trial.

What Will Be the Sultan's Fate?

The evacuation of the quarters around the Yildiz Kiosk began early in the morning. The soldiers of the garrison were made prisoners and their places were taken by Macedonian battalions.

"It was through me," remarked one of the chamberlains of the court, Ali Bey, "that his majesty sent the message to Memdouk Pasha not to resist. 'All of them,' said his majesty, 'still are my children. I do not wish any more bloodshed.' When the Sultan gave the command not to resist there was no resistance, and the affair was ended."

The Sultan summoned his Grand Vizier, Tewfik Pasha and the Minister of War, Edhem Pasha, to come to him when the guns first began to sound Saturday morning. They remained with him throughout the day. The Sultan was silent and outwardly calm and was considerate and courteous toward his aides and others who came in contact with him.

The question is now being asked: "What will be done with the Sultan?" This inquiry was made directly to Col. Hamdi, who replied: "His majesty's return to the events of March 13 will, I understand, be considered by a commission of notable men sitting privately. The endeavor will be to arrive at a just estimate of his position."

Enver Bey, one of the leaders of the Young Turks, when asked how military men regarded the Sultan, replied:

"We do not have an opinion on that subject. The Sultan is in the hands of Parliament. The army's mission is to uphold the civil government."

Help Needed at Adana.

There is still some disquietude about the city. Supply trains are coming in from the country districts, these consisting of strings of donkeys, with boxes of ammunition over their backs; ox carts, rudely built, filled with supplies; herds of sheep and cattle, and some splendid artillery horses and vigorous little ponies. Dispatches are coming here from points in Asiatic Turkey bringing tidings of Armenian and Turkish conflicts all over the country.

The Senate and deputies have adopted a resolution at San Stefano embodying a request to the government to order imperatively the local authority to stop the disorders and punish the leaders. Ambassador Leishman has transmitted the following message:

"Hapless outbreaks at Adana: native Christians suffered much loss of life and property. Their district is in flames; 15,000 now destitute. Thousands of dollars required daily. They have bread alone; lack medical supplies. The four emergency hospitals are already overcrowded. Two large orphanages are required at once. The government cannot meet the present needs. The relief commission has begun work but funds are needed."

Several warships are in these waters, but the disorders are so far reaching that the efforts of the powers to restore normal conditions have as yet hardly been felt. The French cruiser Jules Perry arrived here yesterday and left for Latakia, where swarms of refugees are pouring in. British, French and German warships are at other ports, and marines have been landed to quell disorders as far as possible at the more important points.

Turk Massacre Death List Runs Over 25,000

BEIRUT, April 26.—The situation in Asiatic Turkey is one of extreme gravity. How many thousand have been butchered cannot be estimated, the disturbances having been so wide-spread. Latest estimates place the number of killed in Adana at approximately 25,000, and thousands have been done to death in the towns of other districts. The state of siege which several of the places are undergoing, has brought the inhabitants to the verge of starvation.

NEAR BEER TO BE SHUT OUT OF STATE

SHOULD SENATOR HUMPHRIES' BILL BECOME A LAW.

Bill Creating Palm Beach County Passed Senate—Disfranchisement Up Today.

TALLAHASSEE, April 26.—Near beer will have no place in Florida if it is at all near, if a bill introduced in the Senate Saturday by Senator Humphries of Manatee county is adopted by the Legislature. The bill defines alcoholic liquors and beverages and sets the percentage of alcohol at 2 per cent.

No other bills were introduced in the Senate and it was a comparatively very quiet session.

A bill creating Palm Beach county out of the northern portion of Dade was passed. A bill will be subseuently introduced providing for a change of name from Palm Beach to Flagler county.

Several bills on third reading of minor importance were taken up out of their order and disposed of just to clear the calendar up a little.

Senator Beard's disfranchisement measure has been set as a special order for Tuesday morning at 10:30 o'clock and is perhaps the most important matter that is coming up this week. Senator Beard will probably speak for nearly two hours on this measure and besides advocating it will train his battery against the fifteenth amendment. His speech on this measure is regarded as the feature of the week in the Senate.

As a special order Senate bill No. 30, by Mr. McCreary, relating to entry on enclosures to hunt or fish, was taken up and passed to third reading.

The House.

Contrary to expectation, Hon. W. A. MacWilliams of St. Johns county declined to make motion Saturday for a reconsideration of the action of the House in adopting joint resolution No. 68, providing for constitutional amendment for submission of the question of State-wide prohibition to a vote of the people of Florida.

Following the adoption of the resolution Friday, Mr. MacWilliams gave notice of a motion to reconsider, but just prior to the hour of adjournment Saturday he arose from his seat and stated that he had decided not to take such action. This declaration was greeted with applause from the prohibition forces. Hon. S. J. Hilburn of Putnam, who led the prohibition fight, in a short and happy speech,

TARIFF REVISION UPWARD GOES MERRILY ON

Senator Aldrich to All Practical Ends Is Generously Shouldering All the Work.

WASHINGTON, April 26.—The work of revising the tariff upward goes merrily on.

One man to all practical ends is generously doing all the work. True, there are 91 other Senators here, but in the last analysis one man will virtually make a tariff law for 90,000,000 of people. That man is Senator Aldrich of Rhode Island.

He is chairman of the Senate Finance Committee, to which body the Payne bill was referred after it came to the Senate from the House. On this famous committee there are nine Republicans and five Democrats. The Democrats might as well not be on the committee, because when hearings are held they are excluded from the committee room and when it comes to voting five stand no chance against nine.

But there are five new Republican members serving on the committee. What are they doing toward revision downward? Nothing. Senator Aldrich has given each of them a sugar tariff plum. This has been accepted as payment in full for non-interference with the New England manufacturers' enormous profits.

One of the new members of the committee is Lodge of Massachusetts. There were already two representatives. There were already two representatives on the committee—Aldrich of Rhode Island and Hale of Maine—but Senator Aldrich decided a third New Englander should be added on the eve of the tariff revision. Lodge's constituents—the manufacturers—have been looked after, and so he has no reason to oppose any of Aldrich's plans.

McCumber of North Dakota is another new member. Agricultural products have been taken care of, and McCumber has no risk coming. Although the duty of grains has been raised, the farmer does not profit, as the United States produce more grain than they consume. But McCumber may claim that he has benefited the farmer in campaign speeches, and because Aldrich has permitted him to have his little plum he will not antagonize the Senate boss.

Another new member is Reed Smoot of Utah. Senator Aldrich has given him a nice duty on wool, and the Utah Senator sits in his seat perfectly contented. He has had way in wool, and Aldrich can have his way in everything else.

Still another new member of the Finance Committee is Flint of California. Is his voice ever heard protesting against the abnormal protection given New England multi-millionaire manufacturers? No; his support to Aldrichism has been bought and paid for. The price amounted to an advance of duties on California fruits.

The old members of the committee have had their usefulness to the people purchased by Aldrich in a similar way. Under the domination of Aldrich, the revision of the tariff is at best no better than a farce. He has apparently given no consideration to the popular demand for revision downward. When Senator Bailey of Texas, in fighting one of the vicious advances in rates of the Aldrich measure, declared that the voter of the West had been led to believe the revision would be downward in case of Republican victory, Aldrich flatly contradicted this view.

He made it plain the Republican party stood for higher and higher duties, and there had never been any intention of revising the average tariff rate downward. This is taken to indicate that tariff revision downward must be taken before the people again at the coming Congressional elections. It has been made a certainty downward revision can never be secured from a Republican Congress.

In the meantime the Senate will enact the present tariff bill into law. Aldrich will add a touch here and there until it suits his fancy. It should not be understood no one but Aldrich ever gets the floor in the Senate. As a matter of fact, nearly all of the Senators but Aldrich do the talking. He listens principally. The speeches denouncing this or that feature of the bill are principally protests. In the end the bill will read as Aldrich desires. There will be muttering aplenty even by Republican Senators, but not from those Senators who might be able to get results. Senator Aldrich voluntarily "takes care of" the interests of those lawmakers whom he considers strong enough to interfere with his plans. All other Senators, regardless of the number of speeches and exposes they make, must remain out in the cold.

"Why doesn't President Taft make Aldrich revise the tariff downward?" is asked by the unenlightened.

The President has answered this query many times to visitors. He has declared that one of his permanent policies shall be not to interfere in contests that may arise in either house over any particular legislation.

Eight Meet Death in a Mississippi River Tragedy

NEW ORLEANS, April 26.—Eight people were lost and seven others on board had a thrilling escape from death when the tow boat Eagle of the Louisiana Petroleum Company went down early yesterday in the Mississippi river about forty miles south of New Orleans.

The dead are Capt. George Joyce, Second Engineer Charles Goodhub, Fireman Charles Martin, Mate Richard LeBlanc, two negro deck hands, a negro chambermaid and cabin boy.

The accident occurred early in the morning and at the time all of those who perished were asleep.

Without seeming reason the boat began to dip and take water and in an instant was going down, breaking in half as it sank. Without opportunity to give warning to their companions all unconscious of the impending disaster, those on deck found themselves precipitated into the swift current of the deep channel. They succeeded in catching hold of objects washed from the boat and managed to stay afloat until they attracted attention from the shore.

Their cries atracted two fishermen, who went to their assistance in skiffs and finally landed the party on shore. They were brought to New Orleans

congratulated the gentleman from St. Johns upon deciding not to renew the fight.

Felicitous remarks were then exchanged between prohis and antis and the end of the day's session grew into the shape of a good-natured hobnobbing. All traces of any feeling of estrangement or factionalism seemingly became obliterated, and the members all evidenced a strong desire to show one another that they were willing to let bygones be bygones.

Campaign in Columbia.

Those who came from other States to fight for prohibition have directed their attention to Columbia county, where a dry or wet election will take place next week. These professional prohis announce that they will inaugurate a systematic campaign in the interest of State-wide prohibition at once.

A bill providing for an appropriation of an amount sufficient to make up for the deficiency in the 1909 appropriation for the maintenance of the State Hospital for the Insane was railroaded through both branches of the Legislature Saturday, under waiver of rules. The bill was introduced and passed in both houses simultaneously, and the quick work serves to demonstrate just what the Florida Legislature is able to accomplish in moments of emergency.

Monday being Memorial Day, both branches of the Legislature adjourned to Tuesday, and many members left immediately to spend Sunday and Monday "at home."

on the tug boat Wilmot. None was injured.

The sinking of the Eagle is one of those mysterious tragedies as to the cause for which it is impossible to advance a satisfactory conjecture. There was no explosion of any kind, declare the survivors. At the time, the Eagle was conveying an oil barge up the river. The barge broke away from the towboat when the latter sank.

JAMES LONDON KILLS SMITH WITH HAMMER

FIGHT OVER A SKIN GAME SUNDAY MORNING.

Row Occurs at Mill No. 25, Near Osceola, in Vicinity of Wade.

Another killing has occurred in the western part of Alachua county, the tragedy having been enacted at Mine No. 25, located at Osceola, just west of Wade, and was committed at an early hour Sunday morning.

From what could be learned, a number of negroes at this place were engaged in their usual "skin game" after pay day, when James London and Mitchell Smith became involved in a difficulty that resulted in the latter's death.

After a few hot words, London picked up a hammer that was laying near and sunk it in the head of his comrade with sufficient force to cause his death a short while afterwards.

Justice Bexley of High Springs was notified of the killing and, in company with Deputy Sheriff Thomas, left at once for the scene and empannelled a jury of inquest.

The evidence introduced at the hearing was sufficient to show that the man had been killed in the above manner and London was held without bail to await the action of the next term of court, which will convene in this city during the first week in May.

Alexander Hamilton, first vice-president of the A. C. L. railway and general counsel of this great system, of New York City, was among the prominent visitors here yesterday.

It is understood that his business was connected with the Dutton Phosphate Company, he having come to Gainesville in reference to several minor matters which were settled satisfactory to the interests of all concerned.

It was the intention of this gentleman to take a drive over the city and also try his luck in angling for the finny tribe in Lake Newnan while here, but urgent business matters called him to New York by wire and he left in the afternoon in his private car.

The Verdict of Long Experience.

When you have used a thing twenty years you know pretty well what it is. A baker writes from Sidney, Neb., that for twenty years he has been using Cottolene in his bakery, and finds it the best cooking fat he ever used. He even recommends its use to those who are doing their own baking. This testimonial is noteworthy because it is from a man who makes baking his business and who therefore is in position to judge from long practical use.

Cottolene can be used for all shortening and frying purposes; makes plump, crisp doughnuts, flaky biscuits and light, rich cake. It is better, cheaper and more wholesome than lard.

S. S. S. HEALS SORES AND ULCERS

S. S. S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the place, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S. S. S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S. S. S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.

GRAVES OF DEAD LOVINGLY DECORATED

DAUGHTERS OF CONFEDERACY STREW THEM WITH FLOWERS.

Lengthy and Appropriate Address Delivered by Dr. C. L. Crow of University.

In memory of the lost cause and honor to the departed dead, the Confederate Veterans, Kirby Smith, J. J. Finley and Mildred Lee chapters, U. D. C., and a general sprinkling of the G. A. R., participated in the memorial services held in this city Monday, Judge Horatio Davis acting as commander for Stonewall Camp, U. C. V.

During the forenoon members of Kirby Smith and J. J. Finley chapters visited the cemetery and placed wreaths upon the graves of those who have passed away. The ladies of Kirby Smith Chapter also decorated very appropriately their large and handsome monument on the court house square.

The audience that assembled at the Tabernacle almost filled that spacious building and was one of the largest ever seen here upon a similar occasion. The exercises were under the auspices of Stonewall Camp, U. C. V., and were among the most enthusiastic and successful ever held in this city.

Judge Davis, master of ceremonies, opened the exercises at the Tabernacle, which was followed by prayer by Rev. F. R. Bridges of the Methodist church.

Miss Hester Tittman played "Dixie," which was greatly applauded, causing many to show their enthusiasm, following which the crosses of honor were presented by J. J. Finley Chapter to Mrs. M. G. Bass and H. E. Stokes.

Dr. Charles L. Crow then delivered one of the most appropriate and timely addresses ever heard in this city upon such an occasion. He spoke fittingly of the bravery of the Confederate soldier and of the devotion of the Southern women, and paid a high tribute to the slaves who remained faithful while their masters were away.

The University Cadets, in charge of Major Walker, took a prominent part in the ceremonies, and made a fine showing in their brilliant gray uniforms.

Judge Davis in a few well-chosen remarks thanked the audience for their attendance, and referring to the war, said it was the duty of the children to learn from their parents what manner of men their fathers and grandfathers were, for they had every reason to be proud of their ancestry.

The monument decorations were very handsome, being Confederate flags spaced along at close distance on four large banners of red, white and blue, flowers and evergreens being placed at the end of the bunting on the railing around the coping.

Play to Be Presented by Local Talent at the New Baird.

"The Toastmaster," a pleasing three-act comedy-drama which will be presented at the New Baird tonight, promises to eclipse anything by local talent in some time, and is well worthy of your patronage. The story is along the line of college life and the different characters have been thoroughly drilled by Mrs. Jack Denby, who understands this work, and all should avail themselves of the opportunity to see the many different characters.

Besides the play, a number of specialties will be introduced that will be worth the price of admission, Miss Belle Sadler, and Kay and Goldman, appearing in specialty roles.

The piece is put on for the benefit of The Florida Pennant, a monthly journal that is published in the interest of the University and at the same time an advertisement for Gainesville. This is a very worthy cause and the citizens generally should show their loyalty and at the same time lend the young men the assistance that they deserve.

THE S. P. C. A. HOLD INTERESTING MEETING

SEVENTY-NINE NEW MEMBERS ENROLLED MONDAY.

Meeting of Executive Committee to Be Held in the Very Near Future for Crusade.

The S. P. C. A., the newly-formed society for this city, met Monday afternoon at the court house pursuant to adjournment and was called to order by the president, W. E. Baker, who stated the object of the meeting—to complete the organization and transact such other business as might properly be brought before them.

The committee on solicitation of new members reported and some seventy new members were added to the already large list, which now gives an enrollment of eighty-nine.

The following officers were elected to complete the organization: Rev. S. B. Rogers, first vice-president; Mrs. E. C. F. Sanchez, second vice-president; Mrs. J. E. Futch, third vice-president; P. G. Ramsey, sergeant-at-arms.

The executive committee, consisting of the officers and five members from the association, was selected as follows: T. D. Tinnin, Mrs. W. L. Hill, Mrs. A. P. Morrow, Mrs. H. E. Taylor and W. R. Thomas. It will be the duty of this committee to look after the complaints and have the general management of the warfare to be made by the society in their crusade against cruelty to animals.

This committee will be called together within a very short while to formulate plans, and to take some action against offenses practiced here, which are in direct violation of the law.

Children especially like Kennedy's Laxative Cough Syrup, as it tastes nearly as good as maple sugar. It not only heals irritation and allays inflammation, thereby stopping the cough but it also moves the bowels gently and in that way drives the cold from the system. It contains no opiates. THE AUTO AND ITS USE.

New automobiles are seen on the streets of Gainesville almost daily, and since several agencies for leading machines have recently been established here, the fad for carriages minus the horse promises to become even more popular with our people.

This prompts us to suggest that drivers of automobiles use discretion at all times in running their machines, as the loss of life and property through accidents and collisions due to excessive speeding or carelessness is no small item in the run of a year in this country.

Nearly all cities prescribe a speed limit governing the auto, but even this does not prevent the occurrence of accidents of a serious nature, as the following from The Ocala Banner of Sunday will show:

"Some time between 12 and 2 o'clock, Mr. Walter Yonge, who was driving his Maxwell automobile, collided with Mr. Alexander Moorehead, who was driving into his home on Orange avenue, about a mile and a half south of town. Mr. Yonge, Mr. Pratt Morris and other friends went for a long ride after the minstrel show, and when coming home they ran into Mr. Moorehead's team. It was too dark for them to see the team until they were almost upon it, and it was then too late to stop the machine. The occupants of the automobile were all thrown out, and the machine went over the ditch and through the fence. Mr. Moorehead was thrown several feet into the air, his buggy was completely wrecked and his horse killed. Mr. Moorehead was quite badly hurt, but none of the young men in the automobile were hurt at all, save for a few slight scratches and bruises, and the automobile was very slightly damaged.

"As soon as possible Mr. Yonge and the other young men put Mr. Moorehead into the automobile and brought him to town and to a physician who dressed his hurts. Everybody will be glad to know that he is not seriously injured and that he will soon be as sound as ever.

"The accident is very greatly regretted but seems to have been unavoidable."

Some of the corporations that have been filching the country have had a bad time of it recently and it is hoped they may take the lesson to heart. The American Sugar Refining Company has had to refund $1,239,000 for cheating the customs by false weight, and the Union Pacific railroad, the Utah Fuel Company and the Northern Pacific railroad have had to pay fines aggregating some $2,000,000, and in addition disgorge many thousand acres of valuable coal land which now return to the public domain. All that is gratifying so far as it goes and it will have a great effect on other offenders, but the average man wonders why some of the officials were not imprisoned. If a private firm had used false weights and balances or stolen land the principals would have been put behind prison bars and would be wearing striped suits. Justice will not be adequately done until corporations and trusts are put upon the same footing as private firms or individuals.

The man who expects a path of uninterrupted smoothness through life is doomed to disappointment. Rough and difficult places are sure to be encountered and that is well, for it is just such experiences that make for robustness of life and development of character.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HOW THE HOUSE VOTED.

Following is the way members of the Florida House of Representatives stood when the vote was taken on the amendment to sumbit the question of State-wide prohibition to the electors of Florida:

Against the resolution: Speaker Farris, Representatives Acre, of Osceola; Blanton, of Madison; Butler, of Dade; Bynum, of Hamilton; Calkins, of Nassau; Chaires, of Lafayette; Chase, of Duval; Davis, of Madison; Dempsey, of Suwannee; Dupont, of St. Johns; Hatcher, of Columbia; Knowles, of Monroe; Malone, of Monroe; Smith, of Jackson, and Wells, of Leon—16.

Those voting for the resolution were: Alexander, of Volusia; Bond, of Jefferson; Brown, of DeSoto; Carter, of Alachua; Carn, of Marion; Cash, of Taylor; Clark, of Jefferson; Conway, of Clay; Cox, of Polk; Doke, of Alachua; Godfrey, of Lake; Grace, of Citrus; Hardee, of St. Lucie; Hilburn, of Putnam; Hodges, of Columbia; Hull, of Manatee; Kelley, of Baker; King, of Orange; Knight, of Bradford; Light, of Marion; Littell, of Pasco; MacWilliams, of St. Jonhs; Mahaffey, of Gadsden; McCaskill, of Santa Rosa; McKenzie, of Putnam; McKenzie, of Washington; Miller, of Lake; Moore, of Franklin; Neeley, of Leon; Newton, of Orange; Ogilvie, of Nassau; Page, of Wakulla; Pattissall, of Hillsborough; Peaden, of Santa Rosa; Register, of Hamilton; Richbourg, of Walton; Robertson, of Suwannee; Sheppard, of Gadsden; Stewart, of Brevard; Stokes, of Escambia; Stringer, of Hernando; Taylor, of Hillsborough; Terrell, of Sumter; Taggard, of Liberty; Thornton, of Volusia; Tidwell, of Jackson; Trammell, of Calhoun; Wall, of Bradford; Watford, of Holmes; Wiggins, of Escambia; Wilson, of Lee—53.

The world is poorer by the death of Madame Modjeska the actress, Marion Crawford the novelist, and Algernon Swinburne the poet. Each in his or her own way, freely and wisely used, enriched the world. Many people in their sordid materialism and greed for money making may affect to despise the drama, music, literature and the arts, but without these refining and cheering influences life would be exceedingly mean.

Life is not made up of a few great things but is a mosaic work of words, little duties and acts. When these are well said and well done the whole pattern of life is full of symmetry and beauty.

THE CAUSE OF COLDS

Good Advice Regarding the Prevention of Coughs and Colds.

If people would only properly fortify and strengthen their system, about 98 per cent of coughs, colds and pneumonia might be avoided. These troubles are simply the result of weakness, which produces a catarrhal condition of the mucous membrane, which is as an internal skin of the body. When this skin is weakened, it becomes infected with germs which are carried through the system by the blood. These parasites attack and break these delicate tissues and set up a soreness which produces what is in reality an external scrofula.

The only thing that will cure coughs and colds and prevent pneumonia is a medication which is absorbed and carried by the blood so that the diseased membrane is disinfected, cleaned, soothed and healed.

We have a remedy which we honestly believe infallable and unsurpassable for the prevention and cure of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation of 30 years of cures gained through the use of this medicine. We promise to either effect a cure in every case or make no charge for the medicine. We urge everybody in Gainesville who has need of such a medicine to try Rexall Mucu-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not absolutely positive that we could substantiate our claim in every particular, and we see no reason why anyone should hesitate to accept our offer and try it. We have two sizes of Rexall Mucu-Tone. Prices 50c and $1.00. Sometimes a 50c bottle is sufficient for a cure. As a general thing, the most chronic case is cured with an average of three large bottles. Remember, the medicine will cost you nothing if you are not satisfied in every particular. J. W. McCollum & Co., corner East Main and Union streets.

THE STREET CROSSINGS.

Commissioner Dell Could Make Improvement by Little Work.

The street crossings around the square are in a very disagreeable condition and could be greatly remedied by a little work.

The attention of the reporter has been called to this matter several times during the past few days and it looks as if they could get a cleaning every few months anyway. Fortunately, there has been no heavy rains for the past two weeks or they would have been almost impassable, as they are caked with a great amount of sand and clay and were it to rain would present a very disagreeable spectacle. As it is, you cannot tell that we have vitrified brick crossings, they are so well covered.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

The Value of Good Digestion

Is easy to figure if you know what your stomach is worth. Kodol keeps the stomach at par value, by insuring good digestion. Kodol cures Dyspepsia.

Kodol insures good digestion by absolutely duplicating Nature's normal process, in perfectly digesting all food taken into the stomach.

While Kodol is doing this, the stomach is resting—and becoming strong and healthy. A strong and healthy stomach guarantees a sound and active brain.

The man with a sound stomach—a stomach that is doing for the body just what Nature intended it to do—is the man who is always prepared for any emergency. He is "there with the goods."

The man with a sick stomach, is a man sick all over. When the stomach is irritated by undigested food, the blood and heart are directly affected. Then dullness, unnatural sleepiness, sick-headaches, vertigo and fainting spells, and even serious brain trouble develop. Kodol will prevent these.

Spurring the stomach and brain to special effort by "tonics" and "stimulants" doesn't cure anything, or accomplish any good. Neither does dieting. Indigestion and the serious ailments which it induces can be averted and corrected only by natural means.

Kodol supplies this natural means. It performs the stomach's work for it—just as the stomach should perform it—while the stomach takes a little rest, "for the stomach's sake."

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

pale, rose in his seat and held up his hand as a sign that he desired to ask me a question. I motioned to him to speak up.

"'I say, good Mr. Judge, will you do me a great favor?'

"'Certainly, if it be within my power,' I replied.

"'I hear my tobacco will be cut off. Cannot you make my term six months or even a year if I am allowed to have chewing tobacco?'"

The judge had to explain that he couldn't do anything of that sort. He relieved the prisoner's mind on the tobacco question by telling him that if he was a habitual chewer the prison physician would order a small quantity of the weed for him daily.

Preparing an Alibi.

If culture remains confined within the splendidly bound volumes of the new library that has just been bought by a New Yorker it will not be the fault of the rich man's secretary. He is doing everything he can to let it loose.

"I am cutting the leaves in all the books," he said. "The chances are nobody belonging to the family will ever look inside these books, but the boss has friends who may go snooping around through the library sometimes. In case they do he doesn't want them to gain the impression that literature is neglected in this house, so I am making sure that they will at least find the leaves cut."—Exchange.

A Knocker

Is a man who can't see good in any person or thing. It's a habit caused by a disordered liver. If you find that you are beginning to see things through blue spectacles, treat your liver to a good clean cut process with Ballard's Herbine. A sure cure for constipation, dyspepsia, indigestion, biliousness, all liver, stomach and bowel troubles. Sold by W. M. Johnson.

A Modest Art Student.

An art student in Berlin wrote to a brewing concern in Bohemia offering to paint for the brewers "pictures suitable for advertising purposes—artistic, appropriate, attractive and cheap." He went on to say: "Sir John Millais was not above taking 40,000 marks from a soapmaker for one of his paintings to be used as an advertisement. Nor did he hesitate to offer other pictures for the same purpose at the same price. Why should not I, who owe my tailor and who fears to look my landlady in the face, not do the same? Stay! I shall do better. Am willing to take less than 40,000 marks for my best work."

Slow and Sure.

"How is my son getting along?" asked a parent of the headmaster of a school.

"He's slow and sure," was the response.

"That's satisfactory!"

"Not so," rejoined the master. "By it I mean that he is slow to learn and sure to forget."—London Telegraph.

The Practical One.

"All writers are not impractical, are they?"

"Oh, no! One man will write a joke and sell it for 50 cents. Another will write a comic opera around it and draw $20,000 in royalties."—Louisville Courier-Journal

Eminent Authorities Say

That out-door exercise is needed by the American people. That's all very well, but how can people with rheumatism follow that advice? The answer is very simple—use Ballard's Snow Liniment and the rheumatism will go leaving you as spry as a colt. Gives quick and permanent relief from rheumatism, neuralgia, lame back. Sold by W. M. Johnson.

FOILED THEIR PLOT.

The Way Mme. Alboni Frustrated a Scheme to Hiss Her.

"Once upon a time, when Mme. Alboni was at Trieste," writes Henry C. Lahee in "Famous Singers of Today," "she was informed of the existence of a plot to hiss her off the stage. Having ascertained the names of her detractors and where they were to be found, she donned male attire, to which her short hair and robust figure helped to complete her disguise, and went to the cafe at which the conspirators met. Here she found them in full consultation, and, taking a seat at a table, she listened to their conversation for a time. After awhile she addressed the leader, saying: 'I hear that you intend to play a trick upon some one. I am very fond of a little practical joke myself and should be glad if you would allow me to join you on this occasion.'

"'With pleasure,' was the reply. 'We intend to hiss an opera singer off the stage this evening.'

"'Indeed! And of what is she guilty?'

"'Oh, nothing, except that, being an Italian, she has sung in Munich and Vienna to German audiences, and we think she ought to receive some castigation for her unpatriotic conduct.'

"'I agree with you, and now please tell me what I am to do.'

"'Take this whistle,' said the leader. 'At a signal to be given at the conclusion of the air sung by Rosina the noise will begin, and you will have to join in.'

"'I shall be very glad to do so,' said the singer and put the whistle in her pocket.

"In the evening the house was packed—every seat was occupied—and the audience warmly applauded the opening numbers of the opera. In due course Mme. Alboni appeared, and at the point at which she was about to address her tutor a few of the conspirators began to make a disturbance, not waiting for the signal.

"Without showing any concern Mme. Alboni walked down to the footlights, and, holding up the whistle, which was hung to her neck by a ribbon, she exclaimed: 'Gentlemen, are you not a little before your time? I thought we were not to commence whistling until I had sung the air.'

"For a moment a deathly stillness prevailed; then suddenly the house broke into thunders of applause, which was led by the conspirators themselves."

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies *are* needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

ABOUT ADVERTISING—NO. 7

The Cannon That Modernized Japan

By Herbert Kaufman.

Business is no longer a man to man contact, in which the merchant and the patron establish a *personal* bond, any more than battle is a hand-to-hand grapple, where bone and muscle and sinew decide the outcome. *Trade* as well as *war* has changed in its aspect—*both are now fought at long range.*

Just as a present day army of heroes would have no opportunity to display the *individual* valor of its members, just so a merchant who counts upon his personal acquaintanceship for success is a relic of the past—*a business dodo.*

Japan changed her policy of exclusion to foreigners after a fleet of warships battered down the Satsuma fortifications. The Samurai, who had hitherto considered their blades and bows good enough, discovered that one cannon was mightier than all the swords in creation *if they could not get near enough to use them.* Japan profited by the lesson. She did not wait until *further* ramparts were battered to pieces, but was satisfied with her *one* experience and proceeded to modernize her methods.

The merchant who doesn't advertise is pretty much in the same position as that in which Japan stood when her eyes were opened to the fact that *times had changed.* The long range publicity of a competitor will as surely destroy your business as the cannon of the foreigners crumbled the walls of Satsuma. Unless you take the lesson to heart, unless you *realize* the importance of advertising, not only as the means of *extending* your business but for *defending* it as well, you must be prepared to face the consequences of a folly as great as that of a duelist who expects to survive in a contest in which his *adversary* bears a *sword twice the length of his own.*

Don't think that it's *too late* to begin because there are so many stores which have had the advantage of years of cumulative advertising. The city is growing. It will grow even more next year. It needs *increased trading facilities* just as it's hungry for new neighborhoods.

But it will never again support neighborhood stores. Newspaper advertising has eliminated the strength of being *locally prominent,* and five cent street car fares have cut out the advantage of being "*around the corner.*" A store five miles away can reach out through the columns of the daily newspaper and draw your next door neighbor to its aisles, while you sit by and see the people on your own block enticed away without your being able to retaliate or supply *new* customers to take their place.

It is not a question of your ability to *stand the cost* of advertising but of being able to *survive without it.* The thing you have to consider is not only an *extension* of your business but holding *what you already have.*

Advertising is an *investment,* the *cost* of which is in the same proportion to its *returns* as *seeds* are to the *harvest.* And it is just as preposterous for you to consider publicity as an expense as it would be for a farmer to hesitate over purchasing a *fertilizer* if he discovered that he could *profitably increase* his crops by *employing* it.

A GRATEFUL PATIENT.

The Coin That Was Measured by a Famous Surgeon.

Dr. Grenfell, an old London hospital pupil, in a sketch of Sir Frederick Treves in the Pall Mall Gazette tells the story of a tiny sovereign gold piece given by a grateful patient to the famous surgeon and guarded by him as a priceless treasure. A sailor from Norway had been operated on by Sir Frederick in hospital. His life had been saved, and he had gone his way. Late one evening a timid knock brought Sir Frederick himself at that unusual hour to his door in Wimpole street. A tall, gaunt sailor in threadbare attire asked if this was where "Mr. Treves lives." At his earnest request, though somewhat under protest he was allowed to enter. He at once proceeded to get out a pocketknife, and from the lining of the belt of his trousers he cut out a small gold piece and offered it to Sir Frederick. On his refusal to accept it the man was so hurt that Sir Frederick listened to his story, and an interesting one it was.

The man had on leaving hospital sought a berth at the London docks, but, being a stranger, had been unable to get one. He had got out of money and had gone hungry day after day, though he knew that he had sewed up in his waistband by his wife in Norway the piece of gold in question. He had got so pulled down by bad living that he at last decided he must spend the money, but that very day he succeeded in getting a berth on a ship, and his advance had given the food he stood so sorely in need of. He had promptly tramped all the way to Wimpole street, and his bearing was such that Sir Frederick found himself "bowing into the darkness, holding the gold piece in his hand and with an overwhelming sense of inferiority strongly impressed on his mind."

Judge Hoar's Retort.

Judge Hoar and General Butler were opponents in a case of a new trial. General Butler quoted, "Skin for skin, yea, all that a man hath will he give for his life."

To which Judge Hoar replied, "Yes, the devil quoted that once before in a motion for a new trial."
